

JOIN NEX-GEN IN OUR NEWEST PROGRAM...

LIFE\$KILLS!

Geared towards high school juniors and seniors, Life\$kills engages students in a hands-on learning environment at our Young AmeriTowne of Kansas site in Lenora, KS, and helps them prepare to be financially-fit for their future.

\$

BUDGET\$

Students are assigned a role (position, salary, dependents) and use a monthly budget sheet to evaluate income vs. expenses, and needs vs. wants as they pay for daycare, groceries, student loans, and utilities. Just when they think they have enough left over for a new pair of shoes, they might spin the "Life Happen\$" wheel and spend more to replace a tire or cover an unexpected medical bill.

\$

COMMUNITY READINE\$\$

Students are given a presentation on the importance of being a part of their communities. The information shared helps students get an idea of what they can do to be actively involved in their community.

\$

ADULTING

Using real-world scenarios and data helps this program be as realistic as possible for the students. Making decisions and adjusting their life as needed helps students open their eyes to the adult world.
